

Improving Operational Safety Outcomes, Enhancing Policy Compliance

RightCrowd Time on Site Monitoring

Designed to track and report how much time workers physically spend at their work area

Could your organization benefit from an automated solution to enforce fatigue management and hazardous exposure policies? For organizations operating in highly regulated industries automated time on site monitoring solutions improve safety outcomes and policy compliance.

RightCrowd can be configured to track and report how much time each worker physically spent at their work area. Data from the security system or other time tracking solutions can be reconciled to ensure compliance with regulatory requirements or company policy. This approach not only accurately records when workers physically arrive and leave their work site, but also can monitor break periods, using this same entry and exit swipe data.

RightCrowd works with Fortune 50 companies simplifying and automating the processes that govern security, safety and compliance.

CONFIGURABLE TO BUSINESS OR REGULATORY PROCESSES

Unique business and compliance processes can be flexibly configured into the system.

WORK AREAS

INDIVIDUALLY CONFIGURED

Reconcile data from multiple systems and individually set up fatigue or exposure rules.

FATIGUE MANAGEMENT

POLICIES ENFORCED

Mandated rest periods can be automatically checked before access is granted.

FINANCIAL & CORPORATE

RECONCILIATIONS

Reduce the administrative burden and accelerate billing reconciliations, adding efficiency and significant cost savings to operations.

Solutions

- 1 SINGLE SOURCE OF THE TRUTH**
Integrate and reconcile the data from time keeping, operational and security systems.
- 2 ENFORCE POLICY COMPLIANCE**
Configure all required regulations and rest periods into the RightCrowd rules engine and only grant access based on 100% policy compliance.
- 3 BEST-PRACTICE FEATURE SET**
Automate and track requests for physical access to your site, or areas of your site, with an access request process tailored to meet your business requirements.
- 4 SINGLE RECORD OF WHO IS ONSITE**
Safely and efficiently manage everyone on site, without maintaining additional disparate applications.
- 5 CERTIFICATIONS & TRAINING MANAGEMENT**
Automate the granting / denying of access based upon training or certification requirements, licences or purchase orders.
- 6 INTEGRATED BILLING RECONCILIATION**
Integration with ERP systems support seamless billing reconciliation and improved cost efficiencies and contractor billing management.
- 7 IMPROVED SAFETY & SECURITY OUTCOMES**
Enforcing policy at the gate ensures that untrained or fatigued workers do not enter.
- 8 COMPLIANTLY MANAGE WORKFORCE**
Improve rostering visibility, training and billing processes improving operations and lowering costs.
- 9 REPORTING & AUDITING**
Remove the guesswork around access status with automated access recertification and reporting functionality.

For many years, some of the world's largest, most demanding enterprises have relied on RightCrowd's software to enhance the security, safety and compliance of their employees, contractors and visitors.
