

Improving Emergency Response & Recovery

RightCrowd Evacuation Management

 Designed to deliver efficient and accurate mustering during emergencies.

RightCrowd Evacuation Management improves emergency response and recovery by identifying the location of every employee, contractor and visitor on site.

RightCrowd Evacuation Management provides Safety and Security Managers with a simple and dynamic personnel location system during emergency situations, avoiding the requirement for manual reports from multiple systems.

The solution seamlessly integrates to the physical access control system, to be the single record of who's on site and where they are, in real-time.

RightCrowd works with Fortune 50 companies simplifying and automating the processes that govern security, safety and compliance.

IMPROVE EMERGENCY RESPONSE AND RECOVERY

Single record of all employees, contractors and visitors, that identifies in real-time who is at a muster point and who is unaccounted for.

MOBILE DEVICES, SUPPORTING A FLEXIBLE CONFIGURATION

Using a mobile device with RightCrowd, wardens can quickly account for who is safely at pre-configured muster points.

VISUALIZE IN REAL-TIME THE LOCATION OF EVERYONE ON SITE

Browser-based interface that reports in real-time the location of all employees, visitors and contractors.

IMPROVES THE LIFE SAFETY PROFILE OF YOUR OPERATION

The system ensures a timely, efficient and accurate mustering procedure for emergency events and drills.

Solutions

- 1 STREAMLINED EVACUATION MANAGEMENT**
Efficiently manage evacuations, without maintaining siloed third party applications or dealing with risks around manual processes.
- 2 IMPROVE EMERGENCY RESPONSE AND RECOVERY**
Single record of all employees, contractors and visitors, that identifies in real-time, who is at a muster point and who is unaccounted.
- 3 REAL-TIME PERSONNEL LOCATION DATA**
RightCrowd equips safety wardens with real-time data on who is actually on site and their last known location.
- 4 MOBILE DEVICES, SUPPORTING A FLEXIBLE CONFIGURATION**
Using a mobile device with RightCrowd, wardens can quickly account for who is safely at pre-configured muster points.
- 5 IMPROVED EMERGENCY RESPONSE**
The location of workers and visitors who do not report to the muster point can be pinpointed based on their last badge swipe, aiding rescue personnel.
- 6 ACCOUNT FOR EVERYONE SAFELY**
RightCrowd automatically includes visitors in the system, along with all employees and contractors, to ensure that everyone is safe.
- 7 EMERGENCY CONTACT DETAILS**
Contact details can be easily accessed through the RightCrowd system during the emergency.
- 8 INCREASE THE LIFE SAFETY PROFILE OF YOUR SITE**
Single screen views which can be used to track who is in high risk areas during an emergency.
- 9 IMPROVE EMERGENCY PLANNING**
The time taken to perform evacuation drills can be reduced by up to 80% and allows the organization to better understand the risks and opportunities for safety improvement.

For many years, some of the world's largest, most demanding enterprises have relied on RightCrowd's software to enhance the security, safety and compliance of their employees, contractors and visitors.
