

# RightCrowd Enterprise

---

RightCrowd software ensures everyone on site is right

Designed to enable organizations to automate critical security, safety and compliance processes.

RightCrowd Enterprise is designed to meet the complex and demanding needs of large organizations. The solution integrates HR, IT, safety, finance, risk and compliance systems. It integrates seamlessly with a customer's existing physical access control system.

By utilizing RightCrowd's highly configurable rules and business policy engine, it can be configured to meet very specific and unique customer needs.

This enables RightCrowd to manage and automate regulatory requirements and company policies to ensure they are enforced at the physical security layer.

**RightCrowd works with Fortune 50 companies simplifying and automating the processes that govern security, safety and compliance.**

## **INTEGRATE OPERATIONAL & BUSINESS SYSTEMS**

RightCrowd solutions link the physical access control system with the organization's core business systems.

---

## **APPLY BUSINESS POLICY & COMPLIANCE RULES**

Business rules can be applied to identities and their access on a holistic level and tailored to handle the specific needs of each business.

---

## **ENFORCE POLICY COMPLIANCE THROUGH SECURITY SYSTEMS**

RightCrowd enhances the physical access control system to ensure employees, contractors and visitors are consolidated in one system.

# Solutions
