

RightCrowd Essentials

Improving Security Management, Enhancing Productivity

Designed to simplify and automate Security, Safety and Compliance Management processes.

RightCrowd Workforce Essentials allows customers to take full advantage of the workforce and visitor management functionality demanded by the Fortune 50. Delivered “out-of-the-box”, the solution simplifies and automates pre-defined access management processes to deliver increased efficiency and productivity improvements to the security management team.

RightCrowd Workforce Essentials bundles access and identity management functionality at a fraction of the cost. It has been designed to provide customers with immediate benefits after installation and leverage solutions that only large organizations could previously benefit from.

RightCrowd has worked with Fortune 50 companies for many years simplifying and automating the processes that govern security, safety, and compliance, and has now packaged that functionality into a product designed for businesses of all sizes.

STREAMLINED VISITOR MANAGEMENT PROCESSES

Streamline visitor entry processes by pre-registering visitors ahead of time and improve governance with an optional approval processes.

ACCESS MANAGEMENT ENHANCEMENT

Automate and track requests for physical access to your site with pre-configured access level request processes.

TRAINING & CERTIFICATIONS MANAGEMENT

Automate access based on competencies, work permits, licenses or purchase orders.

EVACUATION & MUSTERING MANAGEMENT IN REAL-TIME

Reduce evacuation times with a browser-based view of where people are located in real-time.

ACCESS & IDENTITY MANAGEMENT

Streamline the management and compliance of your people by ensuring that validated and approved workers and visitors have appropriate access.

Solutions

- 1 PHYSICAL ACCESS CONTROL CONNECTED**
Leveraging the power of the access control system to enhance visibility of who's onsite and improve security management.
- 2 ENHANCE VISITOR MANAGEMENT**
Issue visitor access cards or sticky lables, capture visitor photos, and retain visitor records for current and retrospective visitor activity reporting.
- 3 BEST-PRACTICE FEATURE SET**
Automate and track requests for physical access to your site, or areas of your site, with a pre-configured access request process.
- 4 SINGLE RECORD OF WHO IS ON SITE**
Know everyone that is currently on site, not just employees and contractors, but visitors also without maintaining siloed third party applications or dealing with risks around manual visitor processes.
- 5 CERTIFICATIONS & TRAINING COMPLIANCE**
Automate the granting / denying of access based upon training or certification requirements, licenses or purchase orders.
- 6 EFFICIENT EMERGENCY MUSTERING**
Seamless integration with the physical access control system supports streamlined emergency management.
- 7 ENHANCE WORKFORCE MANAGEMENT**
Reduce the administrative burden on security by allowing more users to manage and request changes to access.
- 8 COMPLIANTLY DE-PROVISION TERMINATED WORKERS**
Properly manage your workforce population and ensuring only validated and approved workers have site access.
- 9 REPORTING AND AUDITING**
Comprehensive activity, event and audit reporting capabilities.

For many years, some of the world's largest, most demanding enterprises have relied on RightCrowd's software to enhance the security, safety and compliance of their employees, contractors and visitors.
