

Competency and training compliance for every worker on site

RightCrowd Competencies and Certifications

Competency and training compliance for every worker on site.

Could your organization benefit from enforcing that only trained and certified workers have access to operational areas? Many organizations struggle to enforce compliance of their training, licensing or certification policies continuously.

RightCrowd automates continuous competency compliance and proactive expiry notification.

RightCrowd can be configured to check all competencies and certifications against HR, Training and Learning Management Systems (LMS). When an access request is created for access to a restricted area, RightCrowd will automatically check to ensure the worker has the required competency or certification as part of the approval process. If there is no record of that certification, the access request can be rejected and the originator of the request will be notified.

RightCrowd will also ensure that the competencies are kept up-to-date by proactively notifying workers and supervisors prior to expiry.

CONFIGURABLE TO REGULATORY OR WORK ZONE REQUIREMENTS

Compliance or work area training requirements can be flexibly configured into the system.

COMPETENCY-BASED ACCESS APPROVAL PROCESSES

Automate and track requests for physical access with simplified access level request and approval processes.

TRAINING AND CERTIFICATION CHECKED AUTOMATICALLY

Competencies, work permits, licenses or purchase orders can be automatically checked every time workers enter site.

AUTOMATE CERTIFICATION EXPIRY NOTIFICATION

Proactive certification expiry notices are sent to the worker and management prior to access revocation.

Solutions

- 1 CERTIFICATIONS AND TRAINING COMPLIANCE**
Define workplace access based on training, certification or licenses.
- 2 ENFORCE TRAINING COMPLIANCE**
Leveraging the physical access control system to enforce certifications compliance.
- 3 CONFIGURABLE TO WORK ZONE REQUIREMENTS**
Ensuring only trained and approved workers have access to hazardous areas.
- 4 AUTOMATE ACCESS APPROVAL PROCESSES**
Configure access approval processes and competency checks according to regulatory or policy requirements.
- 5 INTEGRATION WITH BUSINESS SYSTEMS**
Interoperable with a wide variety of ERP, HR, LMS or third party applications.
- 6 SINGLE RECORD OF WHO IS ON-SITE**
Safely and efficiently manage all employees, contractors and visitors, without maintaining disparate third party applications.
- 7 ENHANCE TRAINING AND CERTIFICATIONS MANAGEMENT**
Leverage a single system to manage and enforce certifications and training compliance.
- 8 PROACTIVE EXPIRY NOTIFICATION**
Competencies are kept up-to-date by proactively notifying workers and supervisors prior to expiry.
- 9 IMPROVE SERVICE EFFICIENCY**
Where access is denied, the solution immediately notifies security staff, identifying the worker and the missing credential.
- 10 REPORTING AND AUDITING**
Remove the guesswork around competency and access level status with automated reporting functionality.

For many years, some of the world's largest, most demanding enterprises have relied on RightCrowd's software to enhance the security, safety and compliance of their employees, contractors and visitors. Ask us how RightCrowd has provided cost efficiencies, process improvements and tangible business benefits with our solutions.
