Senior Management Changes

RightCrowd Limited (**Company**) (ASX:RCW) today advises that Chief Financial Officer and Joint Company Secretary, Mr Leslie Milne has resigned from these roles effective today, having served his full notice period. Ms Kim Clark continues in the role of Company Secretary.

Mr Peter Hill, Managing Director, in commenting on this change said, “Leslie has made a valuable contribution to RightCrowd’s considerable growth since joining the Company in 2017, including his oversight through the IPO, and the acquisitions of Ticto and Offsite Vision Holdings.”

RightCrowd also advises that it has subsequently appointed Mr James Stewart as Chief Financial and Operating Officer. Mr Stewart has extensive international finance and operational experience in the enterprise software market. The board of directors has therefore decided to appoint Mr Stewart in a dual executive role with both the financial and operational responsibility in the company.

Mr Stewart brings over 20 years of relevant experience to his role at RightCrowd, having previously held senior management positions within large banks and enterprise software companies across Europe, Asia and Australia. He brings a great understanding of the international software market courtesy of his recent role as Managing Director of the Wolters Kluwer Regulatory, Risk, and Finance software business in Asia. Whilst at Wolters Kluwer, Mr Stewart spent 5 years building the capability of the business and helped to expand operations and materially boost profit margins during his tenure. Prior to Wolters Kluwer, Mr Stewart held a number of senior finance positions during his career in banking, including being the CFO for Royal Bank of Scotland for its Malaysian businesses. Mr Stewart is based in South East Queensland where he lives with his wife and three children.

Mr Hill added, “We are thrilled that James has accepted our offer to join RightCrowd. Our company has experienced significant growth in all areas of the business, including the number of customer deployments and staff across the globe, in addition to several acquisitions and the development of new product lines over the last 2 years. RightCrowd is successfully expanding into international software markets and is so pleased to attract someone of James’ caliber.”
