

RightCrowd Visitor Management

RightCrowd is the Enterprise standard for Visitor Management.

Visitor Management Made Easy

Could your organization process thousands of visitors and contractors, meeting stringent regulatory requirements, at the lowest possible cost?

Corporate lobbies can be busy places with contractors and visitors seeking access to an organization's people, assets and information. Leading companies are now looking for an entry experience that matches their brand. They are not accepting queues, idle staff, or low-tech experiences.

Corporate visitor processing can now be efficiently managed with RightCrowd.

RightCrowd solves this problem by streamlining visitor processing, while continuing to deliver on safety, security and compliance. The solution can be deployed as a standardized guided approach out of the box, through to a customized experience designed to meet specific business process and compliance needs.

Integrated into your enterprise's physical access control system, the solution is proven to enhance the visitor experience and lobby productivity, while delivering policy compliance with full auditability.

RightCrowd Visitor Management supports a range of kiosks and peripheral devices, geared to match your unique business, regulatory and visitor identification requirements.
