## RightCrowd® Announces Consulting Services Expansion with Fortune 50 Client

**RightCrowd Limited (ASX:RCW):** RightCrowd today announced it has signed a consulting services contract with an existing Fortune 50 client. The client has a global RightCrowd deployment, and this agreement to extend the services is focused on driving further return from the client's investment in the software. It represents the first phase of the expected work for the current financial year.

For this client, RightCrowd is an enabler of the client's large-scale digital transformation of its security processes. The client will be expanding the engagement of a dedicated RightCrowd service delivery team to further streamline physical security processes in order to enhance one of the world's leading security operations. The consulting services revenue for this contract is approximately \$650,000 and will be nearing completion within this quarter.

As with most RightCrowd customers, a contractual commitment from RightCrowd exists that it will not publically release identifiable information around the client and the solution. This is primarily due to the role that RightCrowd software plays in managing clients' security processes.
